General Notes

- Specific cohort lesson timetables, classroom allocation, and student reporting instructions are issued separately after admission confirmation.
- Public holiday impact on classes, consultations, and support services may vary by programme and cohort.
- Future-year holiday rows beyond officially published government dates should be reviewed before publication.
- English pathway progression and LLM onboarding milestones should be read together with the relevant offer, admission, and welcome materials.

Calendar dates may be adjusted in line with academic planning, admissions operations, examination scheduling, and official holiday confirmations.
